Preamble

The program on East Asian Economy and Society is a learning-based and inter-/transdisciplinary Master's Program which is composed of five modules¹. The core of the program is formed by the theoretically and methodologically funded, applied study of contemporary affairs (20th and 21st century) in the region of East Asia with a focus on its economy and society. In the curriculum, the region of East Asia is represented by China, Japan, North and South Korea, which are subject of research at the Department of East Asian Studies of the University of Vienna. Wherever possible, Southeast Asia is included. Since East Asia is considered as a whole, no particular emphasis is put on any single country.

Section 1: Objectives and qualification profile

- (1) The objective of the Master's Program on East Asian Economy and Society at the University of Vienna is to train experts in social science methods who specialize in applying their methodological skills to the region East Asia using a multidisciplinary approach. Accordingly, the emphasis is put on transnational and regional issues and comparative analyses. Students are equipped with academic research skills as well as the ability to apply the acquired knowledge in practice. Graduates of the Master's Program on East Asian Economy and Society are able to conduct profound academic research on any exemplarily chosen and practically relevant topic, mainly based on English-language material that can be complemented by German and original language sources, according to the graduates' previous individual training and abilities. Graduates have acquired key methodological fundamentals of the social sciences and have deepened their existing knowledge of the matter theoretically as well as practically. This particularly, but not exclusively, concerns the areas of economic policy, development policy, political economy and International Relations. Graduates have comprehensive knowledge of the economic, political and cultural characteristics of East Asian countries as well as their development. They are able to apply this knowledge to practically relevant issues.

¹ Refer to the University of Vienna Development Plan (Entwicklungsplan der Universität Wien), p. 18.

- (2) Depending on their pre-existing qualifications and those qualifications that are acquired within the program, graduates can be employed in all fields where social-scientific, methodologically based knowledge of China, Japan and Korea and, in particular, an understanding of East Asia as a region and the respective institutional background are required. This includes professional careers in academia, political or economic consultancy, organizations focusing security or development policy or banks and other financial institutions.
- (3) Depending on previous training, students have basic knowledge of at least one contemporary East Asian language enabling them to conduct further language studies in the respective target country.

Section 2: Duration and workload

The amount of work involved in the Master's Program on East Asian Economy and Society amounts to 120 ECTS credits (ECTS)². This corresponds to an expected period of 4 semesters³.

Section 3: Admission requirements

- (1) The admission to the Master's program requires a Bachelor degree or an equivalent university or college degree in an eligible major acquired at an authorized Austrian or foreign post-secondary educational institution.
- (2) Among eligible majors are Bachelor programs in Japanese Studies, Korean Studies, Chinese Studies, Business Administration (*Ger. Betriebswirtschaftslehre*), International Business Administration (*Ger. Internationale Betriebswirtschaftslehre*), Economics (*Ger. Volkswirtschaftslehre*), and Political Studies (*Ger. Politikwissenschaft*), as offered by the University of Vienna⁴.
- (3) Given the completed major is equivalent to a Bachelor's degree or if only few additions are missing in order to attain complete equivalence, additional courses and examinations totalling to 30 ECTS credits may be required.
- (4) The Master's Program on East Asian Economy and Society is offered exclusively in English. Evidence of the required language skills has to be presented as a condition for admittance to the program.

Section 4 Academic title

Graduates of the Master's Program on East Asian Economy and Society receive the academic title "Master of Arts"- abbreviated by MA. This title may be appended to the name.

Section 5: Structure and descriptions of the modules

The Master's Program on East Asian Economy and Society is composed of the following elements: Contemporary East Asian Language, East Asian Society, East Asian Economy and Politics, Research and Master's Colloquium, Master's Thesis, Oral Master's Examination.

These are offered in the form of the following compulsory modules within which different classes may be chosen:

² Editor's note: ECTS is an acronym for "European Credit Transfer System", often used as a synonym for "credits". The ECTS number indicates the actual workload consisting of contact hours and homework. One ECTS means an estimated total workload of 25-30 hours.

³ According to the current legal situation as laid down in the 2002 University law, section 54, subsection 3.

⁴ Editor's note: Please note that these are just examples. In principle, the program welcomes students from all fields who want to complement their existing skills by adding well-funded knowledge on East Asia to get an edge over their peers. This includes graduates of engineering and natural sciences.

Module Overview			
Module	Name	CH ⁵	ECTS
M1	Compulsory Module: Contemporary East Asian Language	10-16	30
M2	Compulsory Module: East Asian Economy	4	15
M3	Compulsory Module: East Asian Politics	4	15
M4	Compulsory Module: East Asian Society	9-12	20
M5	Compulsory Module: Research and Master's Colloquium	2	10
	Master's Thesis		25
	Oral Master's Examination		5
TOTAL			120

A recommended semester schedule can be found in the appendix.

M1	Compulsory Module: Contemporary East Asian Language
CH	10 - 16
ECTS	30
Description	The fundamentals of one East Asian language (Chinese, Japanese or Korean) are acquired. Students may choose the language they wish to study according to the capacities of the Department of East Asian Studies (hereafter referred to as "the Department"). Students who have already acquired a Bachelor degree or a similar qualification in one of the languages offered by the Department are required to take courses in a language in which they do not hold such a degree or qualification.
Goals	<ul style="list-style-type: none"> - Students know the respective pronunciation rules and writing systems. - They master the fundamentals of grammar and syntax. - They acquire basic vocabulary. - They have basic command in listening, speaking, reading and writing which enables them to communicate in everyday situations.
Structure	Regular language courses offered by the Department according to the individual requirements.
Course type	UE (Ger. <i>Übung</i> , exercise course) ⁶
Course assessment	Successful completion of the courses ⁷

There is the option to substitute one of the four seminars (see appendix) of the subsequently described modules M2 and M3 by another seminar offered by the Department of East Asian Studies, provided the respective admission requirements are fulfilled. The amount of ECTS must equal the required number of credits of the seminar that is not taken.

⁵ Editor's Note: CH = The number of contact hours per week for the duration of a semester (usually 15 weeks); thus 2 SH means two contact hours per week and a total of about 30 contact hours per semester.

⁶ Editor's note: For a list of course types and their description, please refer to section 8 of this curriculum.

⁷ Editor's note: This usually means that you have to get a grade better than „F“ (or „5“ in the Austrian system).

M2	Compulsory Module: East Asian Economy
CH	4
ECTS	15
Description	Students focus on economic aspects of the region of East Asia and its countries. These may include subject areas from the national economy, business economics or economic history. Static situations, as well as dynamic processes, are discussed with the prime concern of combining theory, methods and empirical data. The module is composed of the two seminars 2a and 2b, as described in the appendix.
Goals	<ul style="list-style-type: none"> - Students acquaint themselves with the fundamentals of theories of economic development and economic systems. They acquire the ability to apply these theories to specific cases in East Asia. - They understand developmental paths and economic systems of countries in East Asia including their particular characteristics. - In particular, students are able to apply methods of the New Institutional Economics to East Asia. - They are capable of deriving conclusions for unfamiliar cases, of gathering relevant data in order to verify their theses and of conducting appropriate analyses according to the academic standards of the respective subject area. - They are familiar with important macroeconomic and structural indicators and are able to apply them to concrete country cases as well as to analyse the obtained results in an appropriate scholarly manner. - They have the skill to conduct comparative analyses of similar cases and understand current and future societal effects of the respective systems, also with regard to regionalization.
Structure	SE Economic Development in East Asia (2 SH, 8 ECTS) SE Economic Systems in East Asia (2 SH, 7 ECTS)
Course type	SE (seminar)
Course assessment	Successful completion of the courses

M3	Compulsory Module: East Asian Politics
CH	4
ECTS	15
Description	Students focus on political aspects of the region of East Asia. These may include national, comparative and international subject areas. Static situations, as well as dynamic processes, are discussed with the prime concern of combining theory, methods and empirical data. The module is composed of the two seminars 3a and 3b, as described in the appendix.
Goals	<ul style="list-style-type: none"> - Students master the fundamentals of the theoretical concepts of Comparative Political Science and International Relations

	<ul style="list-style-type: none"> - They understand the specifics of political systems in East Asia and have the skill to conduct comparative analyses of similar cases as well as understand current and future societal effects of the respective systems. - They are capable of analysing the East Asian security position in a global context as well as the constellation within the region based on accepted theories in an appropriate scholarly manner and are also able to apply this skill to unfamiliar cases.
Structure	SE Political Systems in East Asia (2 SH, 7 ECTS) SE International Relations in East Asia (2 SH, 8 ECTS)
Course type	SE (seminar)
Course assessment	Successful completion of the courses

M4	Compulsory Module: East Asian Society
CH	10 - 13
ECTS	20
Description	In this module, East Asian societies are mainly analysed from a cultural-historical perspective. The individual societies, as well as the region as a whole, are examined with regard to major cultural and historical dynamics.
Goals	<ul style="list-style-type: none"> - Students study the history and culture of the region of East Asia comparatively or in-depth and understand the respective fundamentals of the contemporary economic and political systems. - They are acquainted with the cultural relevance of the region's languages and writing systems. - They are aware of the methods used in East Asian Studies and are able to apply them to their research.
Structure	<p>From the following courses, courses totalling to 16 ECTS have to be selected⁸:</p> <ul style="list-style-type: none"> - VO Lecture (or Lecture Series) on East Asian History (2 SH, 4 ECTS) - VO Lecture on Intercultural Negotiation Patterns (2 SH, 4 ECTS) - VU Lecture and Exercise Course on East Asian History (2 SH, 4 ECTS) - VU Lecture and Exercise Course on East Asian Society (2 SH, 4 ECTS) - VU Lecture and Exercise Course Introduction to East Asian Languages and Scripts (2 SH, 4 ECTS) - VU Lecture and Exercise Course on Methods of East Asian Studies (2 SH, 4 ECTS) - VU Lecture and Exercise Course on Governance in East Asia (2 SH, 4 ECTS) - VU Lecture and Exercise Course on Regionalism in East Asia (2 SH, 4 ECTS) <p>Additional courses totalling to a minimum of 4 ECTS can be selected from the programs offered by the Department of East Asian Studies, provided the respective admission requirements for these courses are fulfilled. Language courses are excluded from this regulation.</p>

5 |

⁸ Editor's note: For this module, you need to complete 20 credits. 16 of these credits have to be earned from among the list of courses that you find under „structure“. The remaining 4 credits can be acquired quite freely as long as they correspond with the basic goals of the module as outlined above.

Course type	VO (<i>Ger. Vorlesung, lecture</i>), VU (<i>Ger. Vorlesung und Übung, lecture and exercise course</i>) ⁹ , SE (seminar), UE (<i>Ger. Übung, exercise course</i>), other types of courses according to the respective curricula where applicable; see section 9, subsection 5
Course assessment	Successful completion of the courses

M5	Compulsory Module: Research and Master Colloquium
CH	2
ECTS	10
Description	In this module, previously acquired skills are refreshed and applied to a research theme that leads to the Master's thesis.
Goals	<ul style="list-style-type: none"> - Students recapitulate and practice the academic skills acquired throughout the courses of the program. - They find a scholarly ambitious and relevant topic for their Master's thesis. - They are able to organize and conduct research on this topic according to academic standards. - They master the presentation of complex problems.
Structure	SE Research and Master's Colloquium
Course type	SE (seminar)
Course assessment	Successful completion of the courses

6 |

Section 6: Master's thesis

- (1) The purpose of the Master's thesis is to demonstrate the capability to work on academic topics independently and in an appropriate scholarly manner, as regards contents and methodology. The Master's thesis should be conceptualized in a way that students can finish it within six months.
- (2) The topic of the Master's thesis has to be chosen based on the contents of the compulsory modules M2, M3 or M4. The research questions of the Master's Thesis should concern transnational and regional phenomena. Comparative theses are permitted. These, which focus on only one East Asian country, are generally not accepted.
- (3) The Master's thesis is credited with 25 ECTS points.

Section 7: Master's examination

- (1) In order to be admitted for the Master's exam, students have to successfully complete all of the compulsory modules and examinations as well as the Master's thesis.
- (2) The Master's examination is a public defense taken as a general examination in front of a commission (Prüfungssenat).
- (3) The Master's examination is credited with 5 ECTS points.

⁹ Editor's note: VU is a course type that combines elements of lectures and of more interactive exercise courses. See also section 8 of this curriculum.

Section 8: Classification of the courses

(1) Lecture (Ger. “Vorlesung”, abbr. VO)¹⁰:

Students are didactically guided towards the main areas and methodologies of the field of study; they are introduced to the main facts and schools of thought; state-of-the-art academic research is discussed. “Lectures” consist of individual lectures or other forms of a presentation by one or more course instructors (e.g. lecture series, Ger. “Ringvorlesung”). A lecture course is completed by an oral and/or written examination on the contents of the lecture and the related literature. Attendance is not compulsory.

(2) Lecture and exercise course (Ger. “Vorlesung und Übung”, abbr. VU)¹¹:

This type of course is subject to continuous assessment of course work. It combines lectures held by course instructors with students’ active participation, such as written assignments or presentations. The course assessment is based on at least one written examination. Attendance is compulsory.

(3) Seminar (abbr. SE)¹²:

Seminars include a continuous assessment of course work. They serve the purpose of engaging students with an in-depth examination of exemplary topics and help them practising independent conduct of research by combining methods, empiricism and analyses. Course instructors introduce new subjects, which are treated and critically questioned by the students. The participants show theoretically funded competence to solve problems regarding the independent development, discussion and presentation of academic contents in oral and written form. In addition to multiple written and/or oral contributions, the participants are required to write a self-developed term paper (Ger. “Seminararbeit”). Attendance is compulsory. The number of participants is limited to 25.

(4) Exercise courses (Ger. “Übungen”, abbr. UE):

Exercise courses serve the purpose to work out selected problems and topics collectively. Attendance is compulsory. Exercise courses are examined by continuous assessment of course work. Students are involved in working out the subject matter continuously and actively. In the case of language courses, theory and practice of the respective contemporary language are conveyed. According to requirements, teaching methods can vary from instructor-centred teaching to independent work in small groups.

(5) Other types of courses:

Further unlisted types of courses offered by other divisions of the Department of East Asian Studies are subject to regulations as laid down in the respective curricula.

¹⁰ Editor’s note: This is a classical monologue; the lecturer speaks, the students listen and at the end have the opportunity to ask a few questions. There is usually only one exam at the end of the course that can be repeated a few times, in case of failure, according to Austrian legal provisions.

¹¹ Editor’s note: Beware of another possible misunderstanding. This is only ONE course, not a lecture AND an exercise course. It combines elements of a lecture, i.e. a high percentage of lecturing, and exercise courses, i.e. a dialogue between lecturer and students as well as the requirement of continuous student contributions

¹² This is the most intense course type, characterized by a heavy workload and dialogue being the main way of classroom communication. A seminar typically involves an extensive term/research paper. Do not underestimate the needed resources: you should not take more than two seminars per semester.

Section 9: Courses with limited participation

- (1) If the number of applications for courses with limited participation surpasses the maximum limit, preference is given to students who attend the course as part of a compulsory module.
- (2) Instructors are entitled to make exceptions to paragraph 1 for some courses in consultation with the authorized academic organ.

Section 10: Assessment regulations

- (1) Course assessment:
Pursuant to the University Statutes, course instructors are required to announce objectives, contents and assessment of the course.
- (2) Workload:
The extent of contents relevant for preparing and holding examinations has to be in accordance with the course's total assessment load in ECTS-credits.
- (3) Interdiction of double accreditation:
Courses and examinations, which were completed as part of the program required for admission to the Master's program on East Asian Society and Economy, must not be accredited again.

Section 11: Study visits abroad

Students are strongly recommended to conduct a study visit abroad in order to strengthen their linguistic, methodical and/or empirical skills. The accreditation of respective certificates has to be decided on by the authorized academic organ.

Section 12: Taking effect

- (1) This curriculum becomes effective after the announcement in the official gazette of the University of Vienna on 01.10.2008.
- (2) The changes of the curriculum as outlined in the official gazette of 11.05.2011, no. 98, issue 18, became effective on October 1, 2011.
- (3) The changes of the curriculum as outlined in the official gazette of 25.06.2012, no. 260, issue 18, became effective on October 1, 2012.
- (4) Students who began their studies before October 1st, 2001, have the right until 30.11.2013 to present all written works as prescribed by the curriculum, including the Master Thesis as well as the oral examination, in German.
- (5) The changes of the curriculum as outlined in the official gazette of 29.01.2016, no. 70, issue 12, became effective on October 1, 2016.
