

## ECOS GUIDELINES HOW TO WRITE AN EXPOSÉ

1. Start with a cover page (see template here: [Cover Page](#)).
2. The exposé is not a research paper. It can be accomplished in as few as five pages.
3. The document **must** include:
  - a. **Title** of your thesis
  - b. **Introduction**, which includes **one** clearly stated research question and a discussion of the relevance of the topic and research question
  - c. Brief **Literature Review**
  - d. Overview of intended **Analytical Framework**
  - e. **Bibliography** (references cited and other source material consulted)

For writing term papers and master's theses, we strongly recommend [Prof. Frank's Youtube Channel](#).

We also provide an [EcoS Guideline on how to format your MA thesis](#).
