- You will present a 5-min test (worth 2 points) every Monday after the class 'Speaking Practice 1a', where you will have to write ten characters, taking into consideration that:
 - Five characters are taken from Homework exercises: please give the correct stroke order by numbering them and mark the directions,
 - Five characters taken from your Modern Chinese Class: please find pinyin of the given character.
- Final test is worth 20%: this includes the basic strokes, total stroke counts, pinyin, and correct stroke order.

Download of Homework exercises:

Please access the class entry on your *moodle* account to download the exercises from the class. You can find them at the after "Sonstige Unterlagen" (Other attachments). Here is a screenshot as guideline:

The screenshot shows a Moodle course interface. At the top, there's a navigation bar with 'universität wien', 'Meine Kurse', 'Hilfe', and 'Dashboard'. Below that, the page title is 'Sonstige Unterlagen'. The main content area lists several attachments: '词典 (Online Lexikon)', 'Lektion01-12 LZ Strichfolge' (with a sub-item 'Langzeichen Strichreihenfolge Lektion 1-12'), 'Freiwillig: Lektion01-12 Langzeichen Übungen' (with a sub-item 'Freiwillig: Langzeichen Strichreihenfolge Übungen Lektion 1-12'), 'liushu 六书', 'erhua', and 'Änderung der Auslaute „iou“, „uei“, „uen“ in Abhängigkeit von Ton und Anlaut'. Below this, there are sections for '1. Lektion' and '2. Lektion'. Under '1. Lektion', there are three files: 'Lektion1', '01 00 Lektion', '01 01 Lektion', and '01 02 Lektion'. A red box highlights these three files, and a red arrow points from the box to the text 'Exercises to print and complete weekly.'
